

40ft Containerised blast room fitted at Wellbore Integrity Solutions

At HodgeClemco we are specialists in manufacturing blasting cabinets. We pride ourselves on our technical knowledge and working with clients to solve their blasting problems.

In September 2022 we delivered a 40ft containerised blast room to Wellbore Integrity Solutions in Aberdeen. WIS provides a comprehensive suite of products and services designed to enhance the lifecycle of oil, gas and geothermal wells.

The blast room was fitted and commissioned by our installation team who travelled up to the site in Scotland. The purpose of the blast room is primarily for the refurbishment of equipment used in the oil industry.

At Hodge Clemco we have a manufacturing facility based in Sheffield, where we are able to fabricate blast rooms to customers specific requirements.

This particular blast room was manufactured to WIS specific requirements. It is a 40ft containerised blast room with a range of features.

Features:

- 9.8m side loading doors
- 2 x 1.25t SWL air hoists
- Plantroom with 2040 blast machine & abrasive cleaning system
- 3000cfm dust extractor
- Lone worker alarm system

For further information about having a blast room manufactured contact Hodge Clemco where our expert team can help you. For more information about Wellbore Integrity Solutions please visit <https://www.wellboreintegrity.com/>
